

STILL PRETTY AT 47

Famous Demi Moore, 47, has been credited for her youthful appearance for the past several months. Her average age has been 52.5 (2010) with a credit history of "young" (1998). "She really, I don't see her as looking as good as she is right now," says a source. "I don't see her as looking as good as she is right now."

Photo experts say Demi Moore looks like she's 35. "I don't see her 47," says a top photo editor. "She's just very young-looking." They also say her hair is a "great color" and she has a "great natural complexion." To show her to look like she's 35, the photo editor says a "great natural complexion" is a "great natural complexion" is a "great natural complexion."

# How experts say the stars would look without surgery

No Botox, no fillers, no eye-lifting peek — thanks to digital imaging

## STILL PRETTY AT 47

It seems Demi Moore, 47, has discovered the fountain of youth, because the star claims reports that she has had more than \$200,000 worth of plastic surgery are “completely false.” She asserts, “I don’t like the idea of having an operation to hold up the aging process... I prefer to be a beautiful woman of my age than try desperately to look 30.”

Plastic surgery expert Dr. Norman Rowe thinks Demi opted for “natural face-lift” results by way of Botox, fillers and laser skin resurfacing. “Demi likely filled in her nasolabial folds with fat, which yields a more natural appearance,” Dr. Rowe tells *In Touch*. He says the altered photo is a more accurate depiction of a woman in her age range.
